Multiple Drug Recalls

May 23, 2023

 118015.53969

LALITHA VADLAMANI-SIMMERS
490 HIGHWAY 85 N
STE A
NICEVILLE FL 32578

Dear LALITHA VADLAMANI-SIMMERS,

We're writing to tell you about a large recall that will affect many of your patients.

The Akorn Operating Company manufactured drugs and products with hundreds of NDC codes. They have declared bankruptcy and stopped all production. All of Akorn's products are being recalled. Please see the attached list.

What you should know

No specific drug-related risks have been reported. But due to the discontinuation of their Quality Program, Akorn cannot guarantee that their products will be safe and effective until the expiration date shown on the label.

Patients have been advised to stop using — and throw away — any products they have on hand. They may also contact you to talk about other therapy options that could treat their condition.

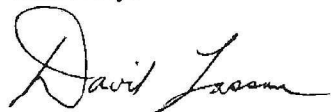

Questions?

For questions about this issue, please call Akorn at **1-800-932-5676**. Or you can visit the FDA's website.

This letter is not intended to replace your clinical judgment. Thank you for monitoring your patients' health, and for helping them know about this issue.

Sincerely,

A handwritten signature in black ink that reads "David Lassen".

David Lassen, PharmD
Chief Clinical Officer
Prime Therapeutics LLC
